Supporting Your Application

The journey from application to enrolment

October

Applications open via **www.nbp16c.org.uk** on 1 October 2026. As well as our Open Evenings and Mornings, an overview film (and full range of subject films) is available to support your decision making. See website for details.

December

By meeting the initial application deadline of **4 December 2026** you will have the best possible chance of securing a place to study at the Centre.

January

From January onwards, we will work through applications in accordance with our admissions policy. If we are in a position to make you an offer, you will be invited to join a phone call with a member of the P16 team for an application discussion meeting. Here we will talk through your current progress and your ambitions for the future, helping you to reach secure and informed decisions about the right courses for you to study. If we are unable to make you an offer, you will be notified at this time that you are on our waitlist.

June

After your GCSEs finish, we will invite offer holders for a transition day. Here you will get the chance to experience life at the Centre and attend taster sessions for all your courses, as well as meeting other students and the P16 team. There will be a summer task to help you get ready for your courses.

August

Once you have collected your GCSE results in **August**, if you have an offer from us, we will ask you to come and enrol with us on GCSE results day. This will be an opportunity to discuss any changes to courses should your results contain any surprises, so please make sure you are in Bristol on that date. You can then go off and celebrate!

September

At the start of September, you will take part in an induction to the Centre. This will allow you to get a good feeling of how life at the Centre works and what support is available to you. After two weeks of lessons, we offer a final opportunity for subject changes should you need it.

Our full admissions statement can be viewed at http://www.nbp16c.org.uk/Admissions, or by scanning here:

Please note that all offers are conditional on achieving Centre entry requirements which can be found on our website. Offers made to students with an Education and Healthcare Plan (EHCP) are made pending full consultation with the issuing Local Authority.
